Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indiges-tion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of IN THE DISTRICT COURT.
